intraLINE Protocols

Applies to all protocols for intraMAX®, intraKID® and intraMIN®: For best results, take on an empty stomach and do not take within 2 hours of pharmaceuticals, over-the-counter drugs, or other dietary supplements. Follow dosage with plenty of non-chlorinated or filtered spring water.

Maintenance Protocol:

Take 1 fl oz per day, six days per week.

Performance Protocols:

Take 1 fl oz of intraMAX®/intraKID® in the morning and 1 fl oz of intraMIN® (½ fl oz of intraMIN for children 4 years & over) approximately 6-8 hours later.

Children's Protocol for intraMAX (children 4 years & over):

Take ½ fl oz per day, six days per week.

Chemically-sensitive Patient Protocol (*intraMIN Unflavored recommended*):

Take 1 teaspoon three times per day, six days per week. Best if taken 30 minutes before or after food.
