

# AURALITE TESTIMONIALS

**#1** I have been taking this amazing AuraLite for about 2 1/2 weeks and the changes are phenomenal. I notice that half way through my day I'm not needing a subpar energy drink. AuraLite is giving me sustained energy throughout the day, I am also noticing muscle tightness in my core.

In between swallows I could go on and on about this product. I would recommend this product to anyone who feels sluggish half way through their work day. And, to anyone wanting to lose a little fat from their midsection. My hunger is satisfied much faster and I am not eating as much at meal time.

Thank You.

**Lance, age 35, father of 2, (Manager of a chain drugstore — I see a lot of products. This one actually works.)**

## **#2 Life Altering Body Changing**

I've always struggled with my weight due to overeating and a slow metabolism. Its been a losing battle.

Now I've been losing weight. I started taking AuraLite every morning, 6 weeks ago, often as my breakfast, mixed into 8oz water and 4oz of juice. It's delicious and satisfying. I easily control what I eat.

This product has nutritionally changed my body. I'm slimming fat off my sides and midsection, fat that even with exercise has never come off.

But get this, I have not been doing exercises.

I've only been taking AuraLite which has altered the way my body uses food and how I see food. Since beginning daily use of AuraLite I am in control and seek good wholesome food that makes me feel good! And it is easy to eat a lot less in each portion.

Now 6 weeks of AuraLite has me down 20 pounds, 20 lbs! I'm eating better, I'm feeling better and I'm told I'm looking better as well — all thanks to AuraLite!

I've been an avid coffee and — keyword and — “energy drink”

consumer daily for years, never getting what I was looking for, only adding more as the effects wore off. I was actually more and more tired until it seemed like the coffee and energy drinks just weren't doing anything for me. Expensive.

Instantly after taking only two spoons of AuraLite, I feel a smooth yet great energy boost that lasts and lasts. No shakes or jitters, just clean strong energy all day. Nothing like the rush with a crash with energy drinks that leave you feeling drained.

There is still one more benefit to report. AuraLite will turn around a lousy day in a flash. My body feels so good after drinking my AuraLite that my mood is greatly risen. I feel great, clear minded and positive all day long. I will never be without it.

**Zakk, Production Manager, age 28, father of 3.**

**#3** First thing I noticed was the taste. Not over-powering sweet but calm and mellow. AuraLite hits that just right taste bud. Not gagging like thick diet shakes.

Being at a weight of almost 400lbs, it has helped cut my meals in half and still provide me the energy I need to take on my day. The energy is not a shaking kind of nervous energy, but a calm boost with no crash. I also suffer from IBS (Irritable Bowel Syndrome). I am highly caffeine sensitive, so coffee and energy drinks send me running to the nearest restroom with extreme pain in my stomach.

With AuraLite's natural sources and balanced caffeine I have not problems taking it. AuraLite has given me a new hope for the future for taking my energy, weight and life back into my own hands, giving me more time with my family and doing the things I love to do. I can't imagine not having it.

**Brandon, Production, age 34, father of 3.**

**#4** I've been using AuraLite for about 7 weeks now. It's amazing! I have been experiencing better, deeper sleep — So

very meaningful to get good sleep! — regularity, and good, steady weight loss. I can actually feel my muscles tightening and building even when I'm just driving!

Adding this to a fitness routine would make a big impact on lean muscle building and weight loss. I know this is going to stay part of my daily routine for good.

**Jala, Personal Assistant, age 33, mother of 2.**

**#5** I've been taking AuraLite for about a month now and I've noticed an increase in motivation, reduced appetite, and I'm down 8 pounds. Today, I was in a car accident and even with the added stress and everything that goes along with that, my mood and energy level improved noticeably after taking AuraLite. I'm an avid outdoorsman and I spend a lot of time hiking, kayaking, jet skiing, paddle boarding and whatever else I can find. Since I started taking AuraLite, I've noticed I can go harder and further than I can without. I also can't eat the same size portions that I was used to.

The overall effect is that I can do more with less and it has encouraged me to make better food and beverage choices.

**Ty, Entrepreneur, age 38.**

## **#6 Having A Good Day**

Four years ago I woke up to a Hobo Spider bit just under my diaphragm. In 2 days this developed into a half-avocado size MRSA abscess. Under medical care, this became a whole body MRSA infection. I began with excellent health, so my body fought well for 6 months but then suddenly collapsed.

My entire body was dissolving from the inside out. In one evening my temperature shot to 105F and my blood sugar shot to 385. I was taken to the emergency at the hospital. I was essentially in shock, in and out of

consciousness and more dead than alive.

During my 14 hours in the emergency room, I overheard two doctors describing that my organs were dead and they didn't expect me to make it.

Finally, I got moved to a regular room. During 3 weeks I got quite excellent care, but the treatments and surgery were quite severe. Again, they didn't expect me to make it, but I did — over and over.

So here I am about 4 years later, but honestly, it has been tough finding a good day — a day with energy — a day with lowered pain — a clear mind — so I can function.

For me, AuraLite is my way out. It is an entirely new kind of formula and it is working. Can't imagine life without it now. With it, everything just works better.

AuraLite was created out of 35 years of natural nutrition formulating experience. And I can say that when you entire body is in agony, and you are told repeatedly you are about to die you become uniquely motivated to give it your best shot.

AuraLite isn't just Energy, Appetite Control, Fat Burn, and Muscle Support. It is a whole body, feel good, health tonic. With AuraLite, I have a good day.

**Jevari, age 62, father of 11, grandfather of 15. (Formulator of AuraLite)**
